

Adding Images

To find an image to add, search for it on [svgrepo.com](https://www.svgrepo.com) and download it to your computer.

Select the image tool.

Add your image and change the settings as you wish.

Insert the image.

Use the panel on the right to change sizes.

If you want the image on the **front**, put it on the **TopSilkLayer**.

If you want the image on the **back**, put it on the **BottomSilkLayer**.
